1. Impersonate the sys_ user and search employee training records
2. Now you can see and edit the fields

The screenshot shows the ServiceNow interface for creating a new Employee Training Record. The top navigation bar includes the ServiceNow logo, links for All, Favorites, and History, and a breadcrumb trail: Employee Training Records - Create Created. Below the navigation bar, the page title is 'Employee Training Records' with a sub-header 'New record'. The form contains several input fields: 'Training Name' (a text box), 'Completion Date' (a date picker), 'Employee' (a searchable dropdown with a magnifying glass icon), 'Status' (a dropdown menu currently showing '--None--'), and 'Department' (a text box). A 'Submit' button is located at the bottom left of the form area.

3. Impersonate the other user you cannot see the table
